87-268  
**"MM Docket No. ~~87-3800~~, Fourth Further Notice of  
Proposed Rule Making and Third Notice of Inquiry."**

Dear Commission,

We are a "Low Power Television Station" operator in Florida and in Tennessee. We operate 24 hours a day, 7 days a week, and have done so for many years. We employ many people and take our public responsibility very seriously. We believe that you need to ensure that our industry has a place in the future of free, over-the-air broadcasting. We are already at the mercy of monopolistic cable operators because we do not qualify as "must-carry television stations" under the existing communications law.

Your proposals regarding High-Definition television service presently, does not include a position for our industry and will possibly lead to the destruction of this important industry. We deserve to be part of the telecommunications future, we have spent many years building our businesses by provide "local alternative program" that otherwise would not be available to our communities. Please note my enclosed program schedule which will show you how we offer terrific exclusive programming including local sports, minority talk show, public affairs shows, and many more. How can we possibly survive if we have no place in the HDTV planning?

Please ensure a future for LPTV by including us in the HDTV allocations.

Sincerely,

Hugh Boyd  
General Manager  
WB RP-LP & WBSP-LP
